🏠 Bloemfontein, South Africa

In my current role as a Frontend Web Developer, I have developed web-based applications from design to coding and full implementation. By relying on solid programming knowledge as well as excellent oral and verbal communication I have consistently produced terrific code within customer-set deliverable time frames. My commitment is staying up-to-date with all technological advancements and growing as a developer.

Specializing in: Javcascript, NodeJS, React, HTML5, CSS3, TailwindCSS and SCSS.

Education

MCSD Qualifications, *ATTI Bloemfontein*   Jan 2019 – Dec 2019

**Graphic Design, Multimedia and
Web Programming,** *ATTI Bloemfontein*   Jan 2015 – Dec 2017

Paul Erasmus High School, *Head boy*   Jan 2008– Dec 2012

Professional   Experience

Front-end developer, *LeverageBPO/Treehouse*   May 2021 – Dec 2022

- Given tasks on different types of websites already designed by the company and update them or fix issues that come up while they're on the web.
- Design templates for usage for companies and implement the templates.
- Change the look of old websites and use the latest coding principles.
- Design mobile-based features and ensure web design is optimized for smartphones.
- Optimizing web pages for maximum speed and scalability.
- Help Backend developers with coding and troubleshooting.
- Maintaining brand consistency throughout the design.
- Going through a prepared task list based on a deadline.
- Weekly meetings for work done and changes that were done.
- Turn UI/UX designs into prototypes, creating excellent interactions. Write reusable code and libraries to a standard that makes it quick and easy to maintain the code in the future.

Lecturer, *ATTI Bloemfontein*   Sep 2019 – Dec 2019
- Accessed students work through the CMS system for marking and also giving out work
- Taught End User and CompTIA
- Practical work

Front-end developer, *Ooweboo*   Sep 2017 – Jan 2018

- Worked directly with business owners to create and deploy performant websites and mobile applications.
- Built stable and maintainable codebases using custom WordPress templates or from scratch with HTML and CSS

•Completed four major projects, working closely with the agile development team to develop, test, and maintain websites.
• Adhered to high-quality development standards while delivering solutions on time.
• Write reusable code and libraries to a standard that makes it quick and easy to maintain the code in the future.
• Morning meetings for work to be done during the day.

Freelance Developer, *Various*   Feb 2018 –

- Worked directly with business owners to create and deploy performant websites
- Built stable and maintainable websites using **JavaScript**, **HTML5, WordPress** and **CSS3**.
